# June 2025 Nonfiction Titles

## **Cloud Warriors**

by Thomas E. Weber

"Weber takes us on a fascinating tour of how meteorologists, scientists, and officials track and prepare for major weather events, such as hurricanes, tornados, floods, forest fires, extreme heat, and winter storms. As climate change is altering our planet and making weather events more extreme, readers will meet those on the front lines of weather preparation and prediction."

## **The Mind Electric**

by Pria Anand

"Neurologist Pria Anand reveals—through case study, history, fable, and memoir—all that the medical establishment has overlooked: the complexity and wonder of brains in health and in extremis, and the vast gray area between sanity and insanity, doctor and patient, and illness and wellness, each separated from the next by the thin veneer of a different story."
